ALAIS

MODERN ORGANIC
 Soft curves anchor six styles in the benchmark ALAIS Collection. Select the sofa, lounge chair, bed, daybed, bench—or our new upholstered nightstand. Fully customizable, or specify our luxury fabrics in cashmere and Italian wool. In ALAIS 2.0, a new leg option is inspired by adventurous designers Faye Toogood, Pierre Yovanovitch, and Roman Plyus.

DAYBED

ALAIS 2.0 DAYBED

WHY ALAIS? Her rounded organic silhouette adds softness and sophistication to the room while creating a relaxing, calming, and welcoming feel. Alais is a conversation-starter and fits any design style.

FREYA

FREYA is a striking collection conceived to celebrate comfort and curves. Think cozy, double-down fill cushions, and luxuriously plush fabric over frames that boast extra surface padding. Shapely and generously scaled, each style beckons its sitter to curl up and enjoy the moment. The hero piece is a uniquely asymmetrical sectional named for the Nordic goddess. Inspired by the ultra chill Japandi aesthetic, its design merges the best of Japanese Zen and Modern Scandinavian influences.

WHY FREYA? Specify Freya for the hippest interior spaces, for those spots where the luxury of time is savored alone and with loved ones; and, soon enough, where the closest of friends will want to gather.

EMBRACE

EMBRACE the possibilities with an upholstered seating assortment that grew from a present-day homage to the Ours Polaire sofa by influential mid-century furniture designer Jean Royère. The French name translates to "polar bear" which, along with the original's sheepskin cover, is an apt description. Elegant in its simplicity, and ideal in scale for a variety of rooms, each piece features a tight, sculpted back and sweeping arms that envelope the plump curves of its seat.

WHY EMBRACE? Specify Embrace when you're looking for that secret ingredient to create the best interior design recipe. There's power in simplicity; decluttered spaces and uncluttered minds are a balm to the times we live in.

MINX

THE INTERNATIONAL
DESIGN &
ARCHITECTURE
AWARDS
2017
WINNER

MINX is an eclectic group of seating silhouettes all centered around an innovative diagonal stitching treatment designed by our award-winning designer, Tina Nicole. Quilted and sewn to perfection, the patterned-seams create a dramatic geometric effect which, when combined with Minx's swooping shape, appears to be sporting angels' wings. Most notably, the Minx wing sofa won the international architecture & design award in 2017! Choose from the Minx sofa, wing sofa, fainting couch, or accent chair.

WHY MINX? Minx is for the refined furniture buyer. Her shape is playful and whimsical while being comfortable and practical. It's always nice to have an award-winning object in your home too!

Our MICHEL collection features a generously scaled, super cozy, heavily padded, 45-inch deep sofa which beckons the sitter to relax and enjoy. Michel showcases the craft of deep channel tufting, which extends from the inside back across the entire surface of the rear panels and along the arms. These organic, egg-shaped forms add to its sensual look and a call to action - "lounging now." The collection includes a sofa, many modular sectional pieces and a generously scaled chair.

MICHEL

WHY MICHEL? Specify Michel to your most sophisticated clients who will relish its sensual nature and deep cushioning as the most comfortable landing in the room.

ROCCO

The Rocco collection features simple lines and ample seating, and the silhouette is especially striking as a luxurious sectional. The metal tubular base has the effect of adding fine jewelry to a sophisticated outfit. It's perfect for dressing up the living room or relaxing at home with family. Suitable for transitional or contemporary decor, there are different sectional configurations to choose from. Rocco additionally includes a sofa, chair, swivel chair and ottoman.

WHY ROCCO? A clean-lined comfortable sofa is nice, but add a touch of jewelry like the tubular base on Rocco, it becomes a thing of beauty that is a must have, and it's customizable.

SABINE

Our popular Sabine collection reinterprets the classic Chesterfield style into a modern silhouette, with deep tufting on the back, arms and seat. It's perfect for the maximalist - or even to punctuate a minimalist's otherwise spare decor. The Sabine sofa perches on curvy wood legs that put us in mind of Manolo's sexy high heels. Each upholstered button is meticulously placed by hand, so all appear to dance in a perfect, cascading rhythm. Choose from the Sabine sofa, chair, corner chair, chaise and ottoman.

WHY SABINE? Sabine is a beautiful work of art. You can lounge in her or climb on her. Her shape and beauty will never fade. Wherever you put her becomes the most glamorous room in the home.

ELAN

THE INTERNATIONAL
DESIGN &
ARCHITECTURE
AWARDS
2016
WINNER

THE INTERNATIONAL
PRODUCT
DESIGN
AWARDS
2016
SHORTLISTED

The contemporary-styled Elan collection — which includes a sofa, sectional, chair, bench/ottoman and upholstered bed — is distinguished by its asymmetrically faceted fabric application on both arms and back. The geometrically tiled panels may be upholstered in an infinite number of combinations, from clean, monochromatic looks with contrasting textures to bold mixes of bright primary colors. An elegant, metal tubular base brightens Elan's sleek silhouette. We were proud recipients of the International Product Design Award 2016 for our Elan/S limited edition chair.

WHY ELAN? Elan appeals to people's need to elevate themselves, it's where abstract art and architecture meet contemporary furnishings, and it's customizable.

AWARDS 2015
WINNER

BONN

Winner of the International Product Design Award 2015, the Bonn collection may be one of the most desired sofas on the market today. It was recognized by the judges for its beautiful knife-edge and boxed combination cushioning, European-inspired shape and design versatility. The Bonn collection includes the sofa, chair and ottoman. The sectional is available in a variety of configurations.

WHY BONN? Bonn appeals to those who love architectural elements mixed with soft-modern lounging. Bonn is a modern-day icon that appeals to hipsters of all ages, and it's customizable.
